

## Uintah High student receives scholarship

Uintah High School student Griffin Chure, son of Dan and Loraine Chure, will be the 2006-2007 recipient of the EnergySolutions scholarship for \$2,000. In addition, applications were also received from students in Georgia, South Carolina, Tennessee, Idaho, and Washington. In the initial year of the EnergySolutions Foundation Scholarship Program the Foundation received an impressive 1,032 scholarship applications from 118 high schools across Utah.

Students selected will receive a \$2,000 scholarship to students interested in earning a bachelor's degree in math, science, or engineering. The scholarship program was open to 10th grade students interested in a career in math or science. Chure is eligible for a grand prize scholarship of \$25,000 and a laptop computer upon entering college and he is

still in the running for \$5,000.

"The long term goal of the program is to help create the next generation of mathematicians, scientists, and engineers for America's future. This is an excellent opportunity for the Foundation to act locally and get results on a global scale," Fraser Bullock, Chairman of the Foundation Board. "We recognize the need our nation has for a well trained workforce and this is a great vehicle to promote that," said Bullock.

The scholarship recipients will be honored at a banquet April 27, in Salt Lake City. The keynote speaker for the banquet will be Michael Benson, President of Southern Utah University. The scholarship program began in October 2006. The application period for 2008 applicants will be available starting in October 2007.
